

# Symptoms Of

# Spiritual Sickness

Struggling to surrender something in your life (whether it's a sin, dream, plan, whatever) to Jesus.

Lacking genuine love and zeal for God & spiritual things.

Never taking time to seek God. Too busy with worldly things to pray & read/study the Bible.

Feelings are dictating your faith.

Complaining and/or criticizing people and/or circumstances.

Struggling to trust God with, for, and/or in everything.

Looking to/depending on yourself and/or others to help you with your spiritual sickness instead of looking to/depending on Jesus.
